VISION OF THE COLLEGE

PMC Tech Polytechnic College shall emerge as a premier Institute for valued added technical education coupled with Innovation, Incubation, Ethics and Professional values

MISSION OF THE COLLEGE

To foster the professional competence through excellence in teaching and learning.

To nurture overall development of students by providing Quality Education & Training.

To provide innovative environment to learn, innovate and create new ideas for the betterment of oneself and society.

VISION OF THE DEPARTMENT

To produce dynamic, competent and innovative Electrical and Electronics Engineering diploma holders to cater the need of the industry.

MISSION OF THE DEPARTMENT

To promote excellence in teaching and laboratory practices

To have good ambience and infrastructure for Electrical and Electronics Engineering students suitable for professional career and higher studies

To inculcate ethics, leadership qualities and professional outlook to develop the overall personality of the students.

To provide opportunities for lifelong skill development and learning for industry and social needs.

PROGRAMME EDUCATIONAL OBJECTIVES

Our Diploma students will be able to

PEO 1	Have a strong foundation in the basic sciences, mathematics and engineering, to enable that they become successful and productive engineers, with emphasis on technical competency, and with attention to teamwork in the broad range of electrical engineering areas to serve the needs of both private and public sectors.
PEO 2	To exhibit professionalism, ethical attitude, communication skills, team work in their profession and adopt to current trends by engaging in lifelong learning.
PEO 3	Actively engage in Quality careers higher Education, Research and Publications.

PROGRAMME OUTCOMES

PO1	Basic and Discipline specific knowledge: Apply knowledge of basic mathematics, science and engineering fundamentals and engineering specialization to solve the engineering problems.
PO2	Problem analysis: Identify and analyse well-defined engineering problems using codified standard methods.
PO3	Design/ development of solutions: Design solutions for well-defined technical problems and assist with the design of systems components or processes to meet specified needs.
PO4	Engineering Tools, Experimentation and Testing: Apply modern engineering tools and appropriate technique to conduct standard tests and measurements.
PO5	Engineering practices for society, sustainability and environment: Apply appropriate technology in context of society, sustainability, environment and ethical practices
PO6	Project Management: Use engineering management principles individually, as a team member or a leader to manage projects and effectively communicate about well-defined engineering activities.
PO7	Life-long learning: Ability to analyse individual needs and engage in updating in the context of technological changes

PROGRAMME SPECIFIC OUTCOMES

PSO1	To Design, analyze, test and evaluate the performance of the electrical machines and transformers
PSO2	Apply knowledge of power system configuration, electrical equipment and protection practices to the design and specification of electrical generation, transmission, distribution and utilization systems
PSO3	Develop skills in electrical machines and power systems to involve and design systems for societal and industrial needs.

GUEST LECTURER

Curiosity is the foundation of learning. Our Technical lecture, online courses and programs help our students to explore new topics and careers so that they can reach their full potential, anytime, anywhere. They Following Guest lecture are

PROJECT REVIEWS

As a part of curriculum, Project reviews are conducted to the students for reviewing the current status of projects and their status of Completion in all aspects of project phases like Extraction, testing and report preparation.

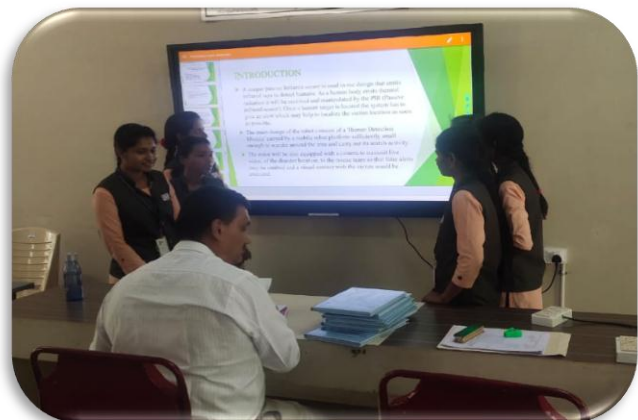

Project Review 1: Conducted during 6th week of the Semester

Project Review 2: Conducted during 10th week of the semester

Students presented their review in batches in PPT format and VIVA was asked to the students individually by the review committee.

The review Committee comprises of HOD, and senior Faculty of the department.

Based on their presentation, review marks are awarded considering the criteria of Content, Communication and presentation skill, contribution of project work by individual person, and completion status.

SYMPOSIUM 2K23

The Electrical and Electronics Technical Association (EETA) has organized National Level Technical symposium - TECHFEST 2K23 was organized on 10.02.2023. More than 50 papers were submitted for the participation. The committee finalized 22 papers and they were intimated to present their topics in our institution.

The list of Participants are,

Chief Guest

Inaugural Mrs. HEPZHIBA ANGELA, Principal- Government Polytechnic College, Uthangarai

Valedictory Mr. NIRANJAN KUMAR M, Sr. General Manager, Power Grid Cooperation of India, Shoologiri, Hosur.

Juries

1. Mr. Arun Subramanian, AP / EEE, Kongunadu College of Engineering and Technology, AP / EEE,
2. Mr.S.Yuvaraj, Lecturer/EEE, Government Polytechnic College, Kelamangalam, Krishnagiri.

ENTREPRENEURSHIP DEVELOPMENT CELL

The ED Cell promotes entrepreneurship, as it has the ability to improve standards of living and create wealth, not only for the entrepreneurs but also for related businesses. Entrepreneurs also help drive change with innovation, where new and improved products enable new markets to be developed. Such a notion amongst the students is what the ED Cell strives to achieve.
